

Design Stencils for Adobe XD

What's New with Stencil Version 1.76

With guideline version 1.76, we've created a new Adobe XD stencil set for Fiori 3.

The SAP Fiori design stencils include:

- Patterns for foundation topics, such as shadow levels, grid, colors, and more
- Page types (floorplans)
- Controls
- Helper tools, such as rem squares or px spacings to build your app according to the current specifications and implementations. We've also included interaction tools, such as like cursors and touch visualizations.

Overview of the stencils included

General Elements

- Helper tools, such as rem squares or px spacings to build your app according to the current specifications and implementations. We've also included interaction tools, such as like cursors and touch visualizations.
