

What's New with Stencil Version 1.98

General

- Separate libraries were created for compact and cozy form factors.
- Information about the form factor was attached to each stencil.
- All colors within the stencils were mapped with the correct theme parameters.

UI Elements

- Updated all UI elements (color mapping with theme parameters)
- Dropdown Menu
- Filter Bar
- Grid List
- Upload Collection
- List
- List Item
- Menu
- Segmented Button
